Dear Vicky,

Re. United Fish Industries' Pollution Prevention and Control permit number: EP/200400001

Please accept this letter as our request to remove our Carbon Monoxide Monitoring equipment from all three of our boilers and replace it with calibrated temperature monitoring devices at the following installation address:

United Fish Industries (UK) LTD  
Gilbey Road  
Grimsby  
North East Lincolnshire  
DN31 2SL

This would be in accordance with section 5.13 of Process Guidance Note 6/19 (05) – “Secretary of State’s Guidance for Fish meal and Fish Oil Processes”.

The temperature monitoring devices (one per boiler) would be continuously recorded and each monitor will be fitted with an audible and visual alarm that will activate if the operating temperature falls below 1123K (850°C).

Please advise if this is acceptable.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Mike Hryckowian', written over the typed name.

Mike Hryckowian.
