Audit and Governance Committee Members North East Lincolnshire Council Municipal Offices Town Hall Square Grimsby North East Lincolnshire DN31 1HU

February 2020

Dear Committee Members

Audit Strategy Memorandum – Year ending 31 March 2020

We are pleased to present our Audit Strategy Memorandum for North East Lincolnshire Council for the year ending 31 March 2020

The purpose of this document is to summarise our audit approach, highlight significant audit risks and areas of key judgements and provide you with the details of our audit team. As it is a fundamental requirement that an auditor is, and is seen to be, independent of its clients, Section 7 of this document also summarises our considerations and conclusions on our independence as auditors.

We consider two-way communication with you to be key to a successful audit and important in:

- · reaching a mutual understanding of the scope of the audit and the responsibilities of each of us;
- sharing information to assist each of us to fulfil our respective responsibilities;
- providing you with constructive observations arising from the audit process; and
- ensuring that we, as external auditors, gain an understanding of your attitude and views in respect of the internal and external
 operational, financial, compliance and other risks facing North East Lincolnshire Council which may affect the audit, including
 the likelihood of those risks materialising and how they are monitored and managed.

This document, which has been prepared following our initial planning discussions with management, is the basis for discussion of our audit approach, and any questions or input you may have on our approach or role as auditor.

This document also contains specific appendices that outline our key communications with you during the course of the audit, and forthcoming accounting issues and other issues that may be of interest.

Client service is extremely important to us and we strive to continuously provide technical excellence with the highest level of service quality, together with continuous improvement to exceed your expectations so, if you have any concerns or comments about this document or audit approach, please contact me on 07875 974 291.

Yours faithfully,

Mark Surridge

Mazars LLP

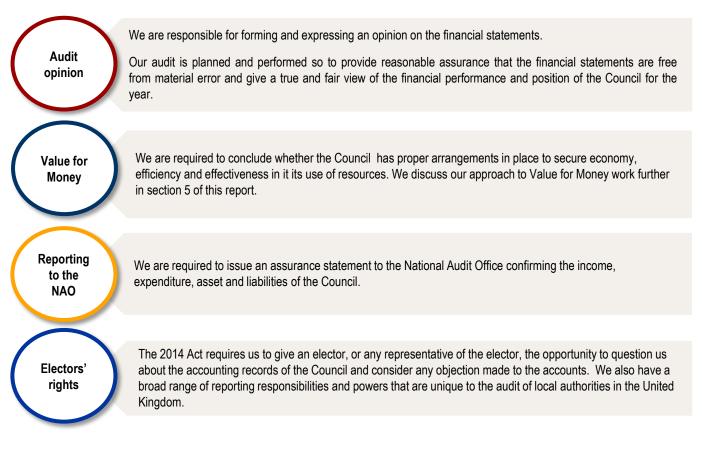

Overview of engagement

We are appointed to perform the external audit of North East Lincolnshire Council (the Council) for the year to 31 March 2020. The scope of our engagement is set out in the Statement of Responsibilities of Auditors and Audited Bodies, issued by Public Sector Audit Appointments Ltd (PSAA) available from the PSAA website: https://www.psaa.co.uk/audit-quality/statement-of-responsibilities/

Our responsibilities

Our responsibilities are principally derived from the Local Audit and Accountability Act 2014 (the 2014 Act) and the Code of Audit Practice issued by the National Audit Office (NAO), as outlined below:

Our audit does not relieve management or those charged with governance, of their responsibilities. The responsibility for safeguarding assets and for the prevention and detection of fraud, error and non-compliance with law or regulations rests with both those charged with governance and management. In accordance with International Standards on Auditing (UK), we plan and perform our audit so as to obtain reasonable assurance that the financial statements taken as a whole are free from material misstatement, whether caused by fraud or error. However our audit should not be relied upon to identify all such misstatements.

As part of our audit procedures in relation to fraud we are required to enquire of those charged with governance as to their knowledge of instances of fraud, the risk of fraud and their views on management controls that mitigate the fraud risks.

The Council is required to prepare its financial statements on a going concern basis by the Code of Practice on Local Authority Accounting. As auditors, we are required to consider the appropriateness of the use of the going concern assumption in the preparation of the financial statements and the adequacy of disclosures made.

For the purpose of our audit, we have identified the Audit and Governance Committee as those charged with governance.

YOUR AUDIT ENGAGEMENT TEAM 2.

Audit scope

Our audit approach is designed to provide an audit that complies with all professional requirements.

Our audit of the financial statements will be conducted in accordance with International Standards on Auditing (UK), relevant ethical and professional standards, our own audit approach and in accordance with the terms of our engagement. Our work is focused on those aspects of your business which we consider to have a higher risk of material misstatement, such as those affected by management judgement and estimation, application of new accounting standards, changes of accounting policy, changes to operations or areas which have been found to contain material errors in the past.

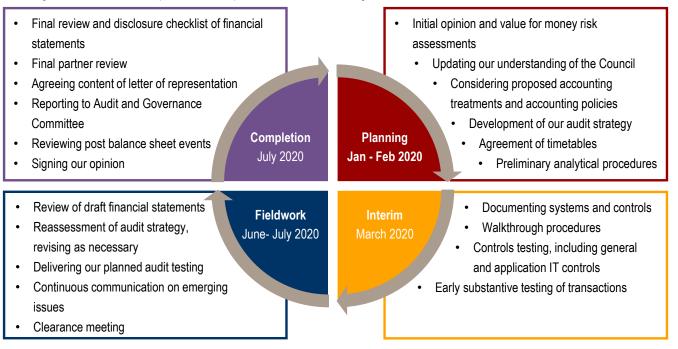

Audit approach

Our audit approach is a risk-based approach primarily driven by the risks we consider to result in a higher risk of material misstatement of the financial statements. Once we have completed our risk assessment, we develop our audit strategy and design audit procedures in response to this assessment.

If we conclude that appropriately-designed controls are in place then we may plan to test and rely upon these controls. If we decide controls are not appropriately designed, or we decide it would be more efficient to do so, we may take a wholly substantive approach to our audit testing. Substantive procedures are audit procedures designed to detect material misstatements at the assertion level and comprise tests of details (of classes of transactions, account balances, and disclosures) and substantive analytical procedures. Irrespective of the assessed risks of material misstatement, which take into account our evaluation of the operating effectiveness of controls, we are required to design and perform substantive procedures for each material class of transactions, account balance, and disclosure.

Our audit will be planned and performed so as to provide reasonable assurance that the financial statements are free from material misstatement and give a true and fair view. The concept of materiality and how we define a misstatement is explained in more detail in section 8.

The diagram below outlines the procedures we perform at the different stages of the audit.

3. AUDIT SCOPE, APPROACH AND TIMELINE (CONTINUED)

Reliance on internal audit

Where possible we will seek to utilise the work performed by internal audit to modify the nature, extent and timing of our audit procedures. We will meet with internal audit to discuss the progress and findings of their work prior to the commencement of our controls evaluation procedures.

Where we intend to rely on the work of internal audit, we will evaluate the work performed by your internal audit team and perform our own audit procedures to determine its adequacy for our audit.

Management's and our experts

Management makes use of experts in specific areas when preparing the Council's financial statements. We also use experts to assist us to obtain sufficient appropriate audit evidence on specific items of account.

Items of account	Management's expert	Our expert
Defined benefit liability	Hymans Robertson Actuary for East Riding Pension Fund	PWC Consulting actuary appointed by the NAO
Property, plant and equipment valuation	Engie The Councils external valuer (non-dwellings)	We will take into account relevant information which is available from third parties.
Financial instrument disclosures	Link Asset Services Treasury management advisors	Not applicable

Service organisations

International Auditing Standards (UK) define service organisations as third party organisations that provide services to the Council that are part of its information systems relevant to financial reporting. We are required to obtain an understanding of the services provided by service organisations as well as evaluating the design and implementation of controls over those services. We have not identified any service organisations which are relevant to the Council.

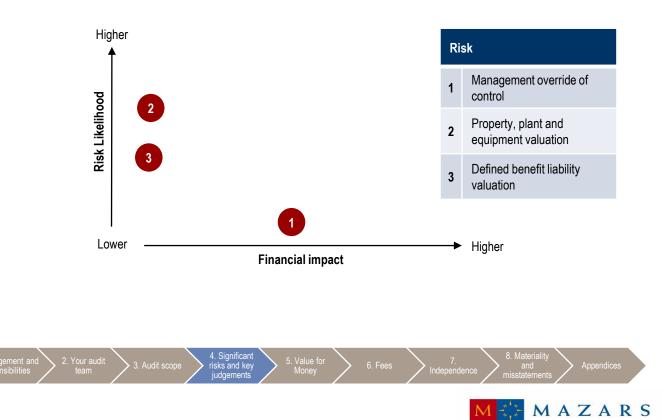

MAZARS

4. SIGNIFICANT RISKS AND KEY JUDGEMENT AREAS

Following the risk assessment approach discussed in section 3 of this document, we have identified relevant risks to the audit of financial statements. The risks that we identify are categorised as significant, enhanced or standard, as defined below:

- Significant risk A significant risk is an identified and assessed risk of material misstatement that, in the auditor's judgment, requires special audit consideration. For any significant risk, the auditor shall obtain an understanding of the entity's controls, including control activities relevant to that risk.
- Enhanced risk An enhanced risk is an area of higher assessed risk of material misstatement at audit assertion level other than a significant risk. Enhanced risks incorporate but may not be limited to:
 - key areas of management judgement, including accounting estimates which are material but are not considered to give rise to a significant risk of material misstatement; and
 - other audit assertion risks arising from significant events or transactions that occurred during the period.
- **Standard risk** This is related to relatively routine, non-complex transactions that tend to be subject to systematic processing and require little management judgement. Although it is considered that there is a risk of material misstatement, there are no elevated or special factors related to the nature, the likely magnitude of the potential misstatements or the likelihood of the risk occurring.

The summary risk assessment, illustrated in the table below, highlights those risks which we deem to be significant. We have summarised our audit response to these risks on the next page.

4. SIGNIFICANT RISKS AND KEY JUDGEMENT AREAS (CONTINUED)

We provide more detail on the identified risks and our testing approach with respect to significant risks in the table below. An audit is a dynamic process; should we change our view of risk or approach to address the identified risks during the course of our audit, we will report this to the Audit and Governance Committee.

Significant risks

	Description of risk	Planned response
1	Management override of controls Management at various levels within an organisation are in a unique position to perpetrate fraud because of their ability to manipulate accounting records and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively. Due to the unpredictable way in which such override could occur there is a risk of material misstatement due to fraud on all audits.	We plan to address the management override of controls risk through performing audit work over accounting estimates, journal entries and significant transactions outside the normal course of business or otherwise unusual.
2	Property, plant and equipment valuation The Council's accounts contain material balances and disclosures relating to its holding of property, plant and equipment and investment properties, with the majority of land and building assets required to be carried at valuation. Due to high degree of estimation uncertainty associated with those held at valuation, we have determined there is a significant risk in this area: limited to those classes of assets that are both material and held at a valuation.	 In relation to the valuation of property, plant & equipment and investment properties we will: Critically assess the Council's valuer's scope of work, qualifications, objectivity and independence to carry out the required programme of revaluations; Consider whether the overall revaluation methodologies used by the Council's valuer's are in line with industry practice, the CIPFA Code of Practice and the Council's accounting policies; Assess whether valuation movements are in line with market expectations by using information available from other sources; Critically assess the treatment of the upward and downward revaluations in the Council's financial statements with regards to the requirements of the CIPFA Code of Practice; and Critically assess the approach that the Council adopts to ensure that assets not subject to revaluation in 2019/20 are materially correct, including considering the robustness of that approach in light of the valuation information reported by the Council's valuer.

SIGNIFICANT RISKS AND KEY JUDGEMENT AREAS 4. (CONTINUED)

Significant risks (continued)

Description of risk

3 Valuation of net defined benefit liability

The Council's accounts contain material liabilities relating to the local government pension scheme. The Council uses an actuary to provide an annual valuation of these liabilities in line with the requirements of IAS 19 Employee Benefits. Due to the high degree of estimation uncertainty associated with this valuation, we have determined there is a significant risk in this area.

Planned response

In relation to the valuation of the Council's defined benefit pension liability we will:

- Critically assess the competency, objectivity and independence of the East Riding Pension Fund's Actuary, Hymans Robertson;
- Liaise with the auditors of the East Riding Pension Fund to gain assurance that the controls in place at the Pension Fund are operating effectively. This will include the processes and controls in place to ensure data provided to the Actuary by the Pension Fund for the purposes of the IAS 19 valuation is complete and accurate:
- Review the appropriateness of the Pension Asset and Liability valuation methodologies applied by the Pension Fund Actuary, and the key assumptions included within the valuation. This will include comparing them to expected ranges, utilising information provided by PWC, the consulting actuary engaged by the National Audit Office; and
- Agree the data in the IAS 19 valuation report provided by the Fund Actuary for accounting purposes to the pension accounting entries and disclosures in the Council's financial statements.

4. SIGNIFICANT RISKS AND KEY JUDGEMENT AREAS (CONTINUED)

Consideration of other mandatory risks

Auditing standards require us to consider two standard risks for all organisations:

- Management override of controls; and
- Fraudulent revenue recognition.

We have already considered and identified management override of controls as a significant risk above, but set out our considerations in respect of fraudulent revenue recognition below:

	Description of risk	Planned response
1	Fraudulent revenue recognition	
	Our audit methodology incorporates this risk as a significant risk at all audits, although based on the circumstances of each audit, it is rebuttable.	 We do not consider this to be a significant risk for North East Lincolnshire Council as: there is an overall low risk for local authorities, and particularly this Council; there are no particular incentives or opportunities to commit material fraudulent revenue recognition; and the level of income that does not derive from either grant or taxation sources is low relative to the Council's overall income streams, and generally represents a number of low value, high volume transactions. We therefore rebut this risk and do not incorporate specific risk procedures over and above our standard fraud procedures to address the management override of controls risk.

MAZARS

4. SIGNIFICANT RISKS AND KEY JUDGEMENT AREAS (CONTINUED)

Key areas of management judgement and enhanced risks

Key areas of management judgement include accounting estimates which are material but are not considered to give rise to a significant risk of material misstatement. These areas of management judgement represent other areas of audit emphasis.

	Area of management judgement	Planned response	
1	Debt Impairment The Council is expected to have significant year end debts for Accounts Receivable and Collection Fund including Council Tax and business Rates. Council officers are required to use their judgement in order to create a reasonable basis for the provision for bad debts to take into account the likelihood of recovery given the underlying economic conditions and previous recovery trends.	We will review basis of the judgements used in creating the provision, including ensuring the judgement is based upon appropriate evidence and assessing the reasonableness of any estimates. This will include reviewing historic trends of collectability and aged debt.	
2	Business Rates Since the introduction of the Business Rates Retention Scheme which came into effect on 1 April 2013, local authorities have become liable for a proportion of successful appeals against business rates charged to businesses. The Council recognises a provision in the financial statements estimating the impact of appeals.	We will review basis of the judgements used in creating the provision, including ensuring the judgement is based upon appropriate evidence and assessing the reasonableness of the estimate.	
3	Fair Value of Financial assets and Liabilities When the fair values of financial assets and financial liabilities cannot be measured based on quoted prices in active markets their fair value is measured using valuation techniques (e.g. quoted prices for similar assets or liabilities in active markets or the discounted cash flow (DCF) model).	Where material we will review basis of the judgements used in creating the provision, including ensuring the judgement is based upon appropriate evidence and assessing the reasonableness of the estimate.

Our approach to Value for Money

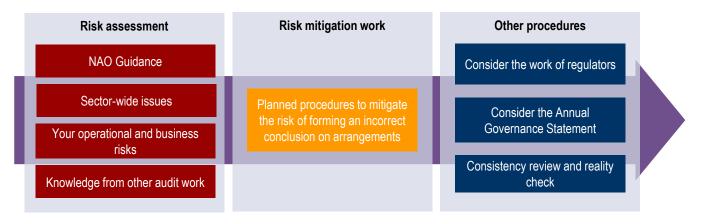

We are required to form a conclusion as to whether the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The NAO issues guidance to auditors that underpins the work we are required to carry out, and sets out the overall criterion and sub-criteria that we are required to consider.

The overall criterion is that, 'in all significant respects, the Council had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people.'

To assist auditors in reaching a conclusion on this overall criterion, the following sub-criteria are set out by the NAO:

- · informed decision making;
- sustainable resource deployment; and
- working with partners and other third parties.

A summary of the work we undertake to reach our conclusion is provided below:

Significant risks

The NAO's guidance requires us to carry out work at the planning stage to identify whether or not a Value for Money (VFM) exists. Risk, in the context of our VFM work, is the risk that we come to an incorrect conclusion rather than the risk of the arrangements in place at the Council being inadequate. As outlined above, we draw on our deep understanding of the Council and its partners, the local and national economy and wider knowledge of the public sector.

For the 2019/20 financial year, we have not identified any significant risks to our VFM conclusion. We have though identified the following Matter which we need to keep to under close review:

- In 2018/19 a planned OFSTED/ILACS focused visit of children's social services took place. The review identified three priority areas
 for remedial action. We concluded in 2018/19 that this was not a VFM reporting issue as it did not reflect systematic system failure and
 the Council had accepted the findings taking the following action:
 - Bringing in support and operational resources of £12m;
 - Requesting support from OFSTED over and above what would be expected i.e. being responsive;
 - Strengthening governance arrangements with an independent chair of the improvement board.

A follow-up visit took place in Oct 2019 highlighted that insufficient action had been taken in 2 of the priority areas. The Council has an improvement plan in place to address the deficiencies highlighted in the follow-up visit. We will continue to review the implementation of the improvement plan and the outcomes of any further OFSTED/ILACS inspections in our consideration of the VFM arrangements in place.

VALUE FOR MONEY (CONTINUED) 5.

We will continually assess whether any matters come to our attention through the course of our audit that lead us to conclude that a risk to our VFM conclusion does exist and where any such risk is identified, these will be reported to the Audit and Governance Committee in July 2020 as part of our Audit Completion Report.

Fees for work as the Council's appointed auditor

The scale fees set by PSAA, as communicated in our fee letter of 24 April 2019, are set out below.

Service	2018/19 Actual fee	2019/20 fee
Code audit work	£91,866	C01 966
Additional Work on the Prior Year Adjustment in 2018/19	£3,000	£91,866
Additional work on pensions related to McCloud	£750	-
Audit Related Services		
Housing Benefit Assurance Process (HBAP)	£7,400	£7,400
Teacher's Pension Return	£2,100	£2,100

has been a raised expectation on the extent of work by all auditors on:

- · Defined benefit pension schemes; and
- Valuation of Property, Plant and Equipment.

Both these areas are highlighted as significant audit risks in this document. This requirement, as well as other regulatory changes affecting the audit, emerged since the current scale fees were agreed by PSAA at the start of the current contract. As a result it is expected that additional fees will arise in 2019/20. This is in line with other audit suppliers under the PSAA contracts who increased fees substantially in 2018/19. As in previous years any proposed increases to the fee to address, for example, changes to the identified risks or other additional required work will be discussed with management in the first instance and are in any event subject to approval from PSAA. We will update the Committee as the position becomes more certain and will confirm the final position in our July 2020 Audit Completion Report.

Fees for audit related services

The Council engaged us to perform the assurance review on the Housing Benefit Claim and Teacher's Pension Return. The fee for 2018/19 was £7,400 and £2,100 respectively and the expectation is that this work and this fee will apply to 2019/20.

Should the Council wish us to undertake any additional work, before agreeing to this we will consider whether there are any actual, potential or perceived threats to our independence. Further information about our responsibilities in relation to independence is provided in section 7.

7. OUR COMMITMENT TO INDEPENDENCE

We are committed to independence and are required by the Financial Reporting Council to confirm to you at least annually, in writing, that we comply with the Financial Reporting Council's Ethical Standard. In addition, we communicate any matters or relationship which we believe may have a bearing on our independence or the objectivity of the audit team.

Based on the information provided by you and our own internal procedures to safeguard our independence as auditors, we confirm that in our professional judgement there are no relationships between us and any of our related or subsidiary entities, and you and your related entities creating any unacceptable threats to our independence within the regulatory or professional requirements governing us as your auditors.

We have policies and procedures in place which are designed to ensure that we carry out our work with integrity, objectivity and independence. These policies include:

- · all partners and staff are required to complete an annual independence declaration;
- · all new partners and staff are required to complete an independence confirmation and also complete computer-based ethics training;
- · rotation policies covering audit engagement partners and other key members of the audit team;
- use by managers and partners of our client and engagement acceptance system which requires all non-audit services to be approved in advance by the audit engagement partner.

We confirm, as at the date of this document, that the engagement team and others in the firm as appropriate, and Mazars LLP are independent and comply with relevant ethical requirements. However, if at any time you have concerns or questions about our integrity, objectivity or independence please discuss these with Mark Surridge in the first instance. Prior to the provision of any non-audit services Mark Surridge will undertake appropriate procedures to consider and fully assess the impact that providing the service may have on our auditor independence.

Included in this assessment is consideration of Auditor Guidance Note 01 as issued by the NAO, and the PSAA Terms of Appointment. Principal threats to our independence and identified associated safeguards in relation to the non-audit work listed in section 6, are set out below:

Service	Considerations
Housing Benefit Assurance Process (HBAP) Teacher's Pension Return	 We have considered threats and safeguards as follows: Self Review: The review does not involve the preparation of information that has a material impact upon the financial statements subject to audit by Mazars; Self Interest: The total fee level is not deemed to be material to the Council or Mazars. The work undertaken is not paid on a contingency basis; Management: The work does not involve Mazars making any decisions on behalf of management; Advocacy: The work does not involve Mazars advocating the Council to third parties; Familiarity: Work is not deemed to give rise to a familiarity threat given these pieces of assurance work used to fall under the Audit Commission's certification regime and were the responsibility of the Council's appointed auditor; and Intimidation: The nature of the work does not give rise to any intimidation threat from management to Mazars.

Any emerging independence threats and associated identified safeguards will be communicated in our Audit Completion Report.

8. MATERIALITY AND MISSTATEMENTS

Summary of initial materiality thresholds

Threshold	Council single-entity materiality £000s
Overall materiality	5,300
Performance materiality	4,240
Trivial threshold for errors to be reported to the Audit Governance Committee	159

Materiality

Materiality is an expression of the relative significance or importance of a particular matter in the context of financial statements as a whole. Misstatements in financial statements are considered to be material if they, individually or in aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Judgements on materiality are made in light of surrounding circumstances and are affected by the size and nature of a misstatement, or a combination of both. Judgements about materiality are based on consideration of the common financial information needs of users as a group and not on specific individual users.

The assessment of what is material is a matter of professional judgement and is affected by our perception of the financial information needs of the users of the financial statements. In making our assessment we assume that users:

- · have a reasonable knowledge of business, economic activities and accounts;
- have a willingness to study the information in the financial statements with reasonable diligence;
- understand that financial statements are prepared, presented and audited to levels of materiality;
- recognise the uncertainties inherent in the measurement of amounts based on the use of estimates, judgement and the consideration
 of future events; and
- will make reasonable economic decisions on the basis of the information in the financial statements.

We consider materiality whilst planning and performing our audit based on quantitative and qualitative factors.

Whilst planning, we make judgements about the size of misstatements which we consider to be material and which provides a basis for determining the nature, timing and extent of risk assessment procedures, identifying and assessing the risk of material misstatement and determining the nature, timing and extent of further audit procedures.

The materiality determined at the planning stage does not necessarily establish an amount below which uncorrected misstatements, either individually or in aggregate, will be considered as immaterial. We revise materiality for the financial statements as our audit progresses should we become aware of information that would have caused us to determine a different amount had we been aware of that information at the planning stage.

Our provisional materiality is set based on a benchmark of total gross expenditure. We will identify a figure for materiality but identify separate levels for procedures designed to detect individual errors, and also a level above which all identified errors will be reported to the Audit and Governance Committee. We consider that total gross expenditure remains the key focus of users of the financial statements and, as such, we base our materiality levels around this benchmark.

We have set our materiality threshold initially at 1.8% of the benchmark based on the 2018/19 audited financial statements.

8. MATERIALITY AND MISSTATEMENTS (CONTINUED)

Based on the 2018/19 audited financial statements we anticipate the overall materiality for the year ending 31 March 2020 to be £5,3m for the audit of the Council's financial statements. After setting initial materiality, we continue to monitor materiality throughout the audit to ensure that it is set at an appropriate level.

Performance Materiality

Performance materiality is the amount or amounts set by the auditor at less than materiality for the financial statements as a whole to reduce, to an appropriately low level, the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality for the financial statements as a whole. In setting performance materiality we have taken into account that this is our second year of audit, we have cumulative audit knowledge about the Council's financial statements, and that we identified a number of errors in the prior year. We have therefore set our performance materiality at 80% (increased from 70% last year) at £4.24m. As with overall materiality, we will remain aware of the need to change this performance materiality level through the audit to ensure it remains to be set at an appropriate level.

Specific items of lower materiality

We have also calculated materiality for specific classes of transactions, balances or disclosures where we determine that misstatements of a lesser amount than materiality for the Council's financial statements as a whole, could reasonably be expected to influence the decisions of users taken on the basis of the financial statements. We have set specific materiality for the following items of account:

Item of account	Specific materiality £000s
Officer remuneration	5*
Members' allowance and expenses	50

* - Reflecting movement from one salary band to another

Misstatements

We aggregate misstatements identified during the audit that are other than clearly trivial. We set a level of triviality for individual errors identified (a reporting threshold) for reporting to the Audit Governance Committee that is consistent with the level of triviality that we consider would not need to be accumulated because we expect that the accumulation of such amounts would not have a material effect on the financial statements. Based on our preliminary assessment of overall materiality, our proposed triviality threshold is £159,000 based on 3% of overall materiality. If you have any queries about this please do not hesitate to raise these with Mark Surridge.

Reporting to the Audit and Governance Committee

To comply with International Standards on Auditing (UK), the following three types of audit differences will be presented to the Audit Governance Committee:

- summary of adjusted audit differences;
- · summary of unadjusted audit differences; and
- summary of disclosure differences (adjusted and unadjusted).

APPENDIX A – KEY COMMUNICATION POINTS

ISA (UK) 260 'Communication with Those Charged with Governance', ISA (UK) 265 'Communicating Deficiencies In Internal Control To Those Charged With Governance And Management' and other ISAs (UK) specifically require us to communicate the following:

Required communication	Audit Strategy Memorandum	Audit Completion Report
Our responsibilities in relation to the audit of the financial statements and our wider responsibilities	\checkmark	
Planned scope and timing of the audit	\checkmark	
Significant audit risks and areas of management judgement	\checkmark	
Our commitment to independence	\checkmark	\checkmark
Responsibilities for preventing and detecting errors	\checkmark

APPENDIX B – FORTHCOMING ACCOUNTING AND OTHER ISSUES

Financial reporting changes relevant to 2019/20

There are no significant changes in the Code of Practice on Local Authority Accounting for the 2019/20 financial year.

Financial reporting changes in future years

Accounting standard	Year of application	Commentary
IFRS 16 – Leases	2020/21	The CIPFA/LASAAC Code Board has determined that the Code of Practice on Local Authority Accounting will adopt the principles of IFRS 16 Leases, for the first time from 2020/21.
		IFRS 16 will replace the existing leasing standard, IAS 17, and will introduce significant changes to the way bodies account for leases, which will have substantial implications for the majority of public sector bodies.
		The most significant changes will be in respect of lessee accounting (i.e. where a body leases property or equipment from another entity). The existing distinction between operating and finance leases will be removed and instead, the new standard will require a right of use asset and an associated lease liability to be recognised on the lessee's Balance Sheet.
		In order to meet the requirements of IFRS 16, all local authorities will need to undertake a significant project that is likely to be time-consuming and potentially complex. There will also be consequential impacts upon capital financing arrangements at many authorities which will need to be identified and addressed at an early stage of the project.
