Funding from the Government's Coastal Communities Fund was procured locally to help coastal communities to strengthen their appeal as places to live, work and visit.

As a result, significant engineering works are taking place to regenerate and improve the town of Cleethorpes and broaden its appeal to visitors with:

- improved public spaces
- public art installations in the town's historic streets and promenades
- creation of a new beachside café/entertainment venue
- support to local tourism businesses
- an extended events programme

The proposed introduction of the above Traffic Regulation Order is to support this regeneration. The streets noted will have a change to their physical layout and as such, the restrictions associated with these streets need to change to support and complement the new arrangements. Work includes the introduction/improvement of more than twenty pedestrian crossing points, bus stop locations with improved access facilities and better delivery access for local businesses.

The order 18-03F is required to be re-advertised due to a failure to comply with Section 7(4) of The Local Authorities' Traffic Order Procedure Regulations 1996; 'Deposited documents shall be made so available at the times and at the places specified in the notice of proposals throughout the period beginning with the date on which the notice of proposals is first published'.
