

## **SCHOOLS FORUM – 18<sup>th</sup> November 2021**

### **High Needs Place Return**

#### **1. PURPOSE**

The purpose of this report is to advise School Forum Members of the total number of places commissioned by the council for specialist provision for the 2022-23 academic year.

#### **2. BACKGROUND AND CONTEXT**

With the introduction of the Fairer Funding Reforms in 2013-14 the methodology for the commissioning and funding of places in education for children and young people with High Needs at specialist provision was fundamentally changed. As part of the changes the Local Authority adopted the role of Commissioner and working with providers determined the number of places it wished to commission at the specialist provisions (including Post-16 Further Education) within its geographical area. It needs to be noted that any out of area establishment that has merged with another NELC establishment whose main hub is within our area is also included within our place numbers. The Education & Skills Funding Agency (ESFA) required Local Authority's to submit its commissioned place numbers via what is called a High Needs Place return. This has been refined over the years since Fairer Funding Reforms were introduced both in terms of information and the timetable for submission. The submission for 2022-23 was submitted on the 11<sup>th</sup> November 2021.

The other major change introduced as part of the Fairer Funding Reforms was around the funding mechanism. Regardless of the previous funding allocation methodology special school/academies and AP providers in future were to be funded using a combination of "per place" funding of £10,000 per place and "top up" funding of an amount dependent on the complexity of need through the banding system. Post 16 FE institutions were to be funded at £6,000 per place.

The ESFA use the information contained on the High Needs Place Return to extract the "per place" funding from the Local Authority's Dedicated Schools Grant allocation to pay to the provision direct where these are academies.

In respect of the High Needs Block funding allocation for 2022-23 indicative but yet unconfirmed amounts advise that this will be £26.203m before the deduction of any per place funding but inclusive of AP teacher pay and pension grants.

### 3. **PLACES COMMISSIONED**

The places to be commissioned by NELC in the 2022-23 academic year are detailed in the table below:

<b>Type of Setting</b>	<b>Number of places</b>	<b>Change</b>
Special Academies	358	0
PRU's	108	0
Alternative Provision	66	0
Post 16	294	12

In addition to the above the Council also has a number of provisions funded centrally from the DSG High Needs Block. Details of which are provided below:

<b>Type of Setting</b>	<b>Number of places</b>	<b>Change</b>
Primary resource-based provision	18	0
ASD	tbc	tbc

Discussions are currently still in progress in respect of the ASD provision.

In respect of the payments made to the settings the Council norm is to pay these monthly.

### 4. **RECOMMENDATION**

There are no specific recommendations arising from the report and Schools Forum are asked to note the report.
