

**Licensing Act 2003**  
**Representation on a Licensing Application**

Please provide your details below

Your Name:	Paul Smith
Postal address including postcode:	87 Main Road Humberston Fitties Humberston DN36 4EU
<p>Are you: Individual</p> <ul style="list-style-type: none"> <li>• An individual?</li> <li>• A person who operates a business?</li> <li>• A person representing residents or businesses?</li> <li>• A member of the relevant licensing authority (ie, elected councillor of the licensing authority)?</li> </ul>	
If you are representing a resident or business please provide details	

Please provide details of the application to which you wish to make a representation.

Name of Applicant	Thorpe Park (Bourne Leisure)
Address of Premises	Thorpe Park Cleethorpes DN35 0PW
Application Details	Variation of licence to amend 'Owners' Lounge show bar and its layout
Last date for representation (if known)	15/12/2022

Please give details of your representation in the box below. Indicate which of the Licensing Objectives your representation refers to by ticking the relevant box/es:

- **The Prevention of Crime and Disorder**
- **Public Safety**
- **Prevention of Public Nuisance**
- **The Protection of Children from Harm**

Your representation must relate to one of the four licensing objectives, which are detailed below. Please detail the evidence supporting your Representation and the reason for your representation. If necessary, separate sheets may be used.

Objectives	Evidence
The Prevention of Crime and Disorder	
Public Safety	
Prevention of Public Nuisance	<p>Unacceptable levels of noise constituting a statutory nuisance from these premises from this and other licenced areas. The issuing of previous and associated licences to this applicant has resulted in a breach of the general duties of the licensing authority as they have failed to prevent public nuisance.</p> <p>The company has breached previous licence conditions and planning conditions operating without planning permission creating a statutory nuisance for a period of 7 Months.</p> <p>Over 250 written complaints regarding noise, nuisance, and loss of amenity received by the council in relation to this applicant's activities.</p> <p>This licence application will further increase activity, noise and disturbance to residents.</p> <p>Excessive noise causing a significant change to the noise environment resulting in a loss of amenity to residents and occupiers of the holiday park alike.</p>

	<p>The company is shortly to be subject to a Statutory nuisance complaint under section 82 of the Environmental Protection Act 1990.</p> <p>This is to be filed at Grimsby Magistrates Court and will have an association to this application.</p> <p>Cooking odours cause annoyance, odour dispersal will be dependent on climatic conditions, open doors will further allow dispersal to the external atmosphere and therefore not controlled by the applicant.</p> <p>Thorpe Park currently allow the emptying of waste bottle containers at 01.00 hrs as their bars close causing noise to travel over 200 mtrs into residential properties waking occupants on a regular basis (statutory nuisance). A condition of any licence must be that no waste activities are permitted outside of the hours of 8am to 8 pm.</p>
<p>The Protection of Children from Harm</p>	

If possible please suggest alterations to the application that would resolve the problem mentioned above, again paying attention to the licensing objectives.

The applicant is installing doors to an external terrace and extending the footprint of the Marina Showbar the following therefore applies.

The measurement of sound levels should be strictly applied so as not to increase the current ambient sound levels and therefore not change the current sound environment, with the terrace doors opened or closed.

Current levels recorded at 42 dB in resident's gardens within 50 mtrs of applicants proposed site.

The applicant should ensure sound proofing, good design and sound systems together do not allow a noise level of greater than 42 dB to be emitted externally to their buildings and premises.

Location and design play a critical role in reducing sound levels and sound travel this should take account of residential areas their proximity and the type of construction of receptor properties.

The properties on Humberston Fitties conservation area are single glazed and poorly insulated, the responsibility and management of sound levels therefore lies with the applicant to ensure a public or statutory nuisance is not created and amenity value lost whether in gardens or inside their properties.

Once the Licensing Section has received this form you will receive a written acknowledgment and you may be contacted to discuss the issue prior to any referral to a sub-committee hearing.

Please return this form to the following address:
