Hi Owen

The documents show that the site has been earmarked for a school since the 1980's.

However, society and lifestyles have changed dramatically since the 1980's and whilst it may have been suitable then doesn't mean it is suitable now

Today, 83% of UK homeowners own at least 2 cars compared to the 1980's when only 15% of households owned a car (source LV.com February 2023) In addition, many also own company vehicles.

Hence, residents showing grave concerns for the traffic congestion and parking.

Please bring this to the attention of the planning committee
