

COUNCIL

DATE	24 th September 2026
REPORT OF	Sharon Wroot, Chief Executive, Electoral Registration Officer and Returning Officer
RESPONSIBLE OFFICER	Simon Jones, Assistant Director Law and Governance, Deputy Electoral Registration Officer
SUBJECT	Polling District and Polling Places Review – Consultation Results
STATUS	Open

CONTRIBUTION TO OUR AIMS

The review contributes to the Council's strategic priority of stronger communities by supporting effective democratic participation and ensuring that polling arrangements are accessible, inclusive and convenient for electors. By reviewing polling districts, polling places and polling stations, the Council can help ensure that residents have reasonable opportunities to take part in local and national elections, and that arrangements continue to support equality, inclusion and confidence in the democratic process.

EXECUTIVE SUMMARY

This report presents the results of the Polling District, Polling Place and Polling Station Review consultation, seeks Full Council approval for the revised polling district and polling place arrangements, and confirms that the new arrangements will be implemented from publication of the revised register.

RECOMMENDATIONS

1. That the revised polling districts and polling places, including Returning Officer considerations, as set out at Appendix 1, be approved and implemented in the publication of the revised electoral register on 1st December 2026.
2. That Council approve Option 3 as the new polling districts for Immingham Town Council, as laid out at Appendix 2 and that the new polling district WA6a in Waltham, as laid out at Appendix 2a, be agreed and implemented in the publication of the revised electoral register on 1st December 2026.
3. That the consultation responses, as set as out Appendix 3, be noted.
4. To authorise the Electoral Registration Officer and Returning Officer to undertake the remaining administrative tasks to conclude the review, including re-numbering polling districts if appropriate and amending the polling places for the outstanding polling stations.

REASONS FOR DECISION

The Council is required under the Representation of the People Act 1983 to divide its area into polling districts and to designate a polling place for each polling district. The statutory responsibility for reviewing polling districts and polling places rests with the local authority, while the Returning Officer is responsible for determining the polling station used at an election. The Electoral Commission's guidance confirms that local authorities must review their polling districts and polling places for UK Parliamentary constituencies at least once every five years and may also carry out interim reviews where local circumstances require this.

1. BACKGROUND AND ISSUES

- 1.1 The current review was agreed by Council on 30th July 2026 following the parish and town council boundary and warding changes arising from the Community Governance Review in 2023/24. The review is required to ensure that polling district and polling place arrangements reflect those approved changes before the revised electoral register is published on 1st December 2026.
- 1.2 The objectives of the review were to ensure, so far as is practicable, that all electors have reasonable facilities for voting, that polling places are accessible to disabled electors so far as is reasonable and practicable, and that polling arrangements remain suitable, convenient and deliverable for future elections. In carrying out the review, the Council has taken account of statutory requirements, Electoral Commission guidance, local knowledge, accessibility considerations, elector convenience, ward and parish boundaries, and the comments of the Returning Officer.

Consultation Process

- 1.3 A public and stakeholder consultation was held following Council's decision on 30th July 2026 to commence the review. The statutory notice of review was published on the Council's website on 31st July 2026, and the consultation invited comments on existing polling district, polling place and polling station arrangements, together with views on proposed changes put forward by the Returning Officer. Representations received during the consultation have been considered and are summarised in Appendix 1, alongside officer considerations and the Returning Officer's comments.
- 1.4 The consultation was promoted through a range of methods to maximise awareness and participation. Information was made available on the Council's website, an online survey was provided for responses, and direct correspondence was sent to relevant stakeholders. The consultation was also promoted through internal and external social media channels, shared with the Council's consultation mailing list of approximately 5,000 subscribers, and featured in the Sector Support Newsletter to reach local community groups.
- 1.5 Stakeholders invited to comment included electors, Members of Parliament, elected members and election agents, parish and town councils, and organisations or groups with an interest in accessibility and the needs of disabled electors. This approach was intended to ensure that the review was

transparent, inclusive and informed by local experience, while also meeting the statutory requirement to consult the Returning Officer and publish relevant representations.

Consultation Results

- 1.6 A total of 56 responses were received through the consultation survey, of which 31 were completed and 25 were incomplete or partially completed. Responses were received from electors across a range of wards and polling areas, with the largest proportion of responses relating to Immingham. Other responses were received from areas including Waltham, Yarborough, Freshney, Park, Humberston and New Waltham, Croft Baker, West Marsh and Scartho. This indicates that, while the consultation generated borough-wide feedback, the strongest level of engagement was from residents affected by the proposed Immingham Town Council polling district arrangements.
- 1.7 Overall, the responses indicated that existing polling arrangements are generally well regarded. Of those who answered the relevant questions, 25 respondents stated that they were satisfied that their polling district boundaries were well defined, 10 were neither satisfied nor dissatisfied, and 2 were dissatisfied. In relation to polling stations, 26 respondents described themselves as either very satisfied or satisfied, 4 were neither satisfied nor dissatisfied, and 8 were dissatisfied or very dissatisfied. Positive feedback focused mainly on polling stations being within a short distance of electors, easy to access, suitable as places to vote, and accessible with level access on entry and exit where applicable. Respondents also identified existing accessibility arrangements such as low-level polling booths, pencil grips, seating, ramps where needed and disabled parking where available.
- 1.8 The main issues raised through the consultation related to the proposed Immingham polling district boundaries, the alignment of polling districts following the Waltham and Wolds parish boundary changes, travel distances to polling stations, the suitability and capacity of some venues, and elector-to-polling station ratios. In Immingham, respondents commented on the proposed options for new polling districts, with views divided between the options presented. Some respondents supported arrangements that reflected natural boundaries and the growth of new housing, while others suggested that fewer polling districts may be sufficient.
- 1.9 The Returning Officer has considered the consultation feedback alongside the statutory requirements, Electoral Commission guidance, elector convenience, accessibility, venue suitability, capacity, local boundaries and operational deliverability.
- 1.10 Of the 21 respondents who identified as living in Immingham, 20 wished to comment on Immingham Town Council polling district boundaries but only 11 voted on the options. Options 1 and 3 were the preferred with 3 votes each, and option 2 and 4 both receiving two votes each.

- 1.11 Options 1 and 3 can be viewed at appendix 4 and 2. Taking into consideration the current electorate in these areas, and the growth of housing developments also taking place in Immingham ward, the Returning Officer is minded to implement Option 3. This option provides capacity for electorate growth in the polling districts and the current polling stations can also be utilised. A new polling place will be required for IM1 ahead of the scheduled elections in May 2027.
- 1.12 The boundary change between Waltham and Barnoldby Le Beck Parish Councils has resulted in a small area no longer being coterminous with ward boundaries. As a result, the Returning Officer will create a new polling district for the affected properties. This can be viewed on the map at appendix 2a.

2. RISKS, OPPORTUNITIES AND EQUALITY ISSUES

- 2.1 The main risks arising from the review relate to potential challenge from electors or stakeholders if community identity, accessibility or elector convenience concerns are not appropriately considered and evidenced. There is also a risk that future electorate growth, particularly in areas of new housing development, could create capacity pressures at some polling stations. The continued availability and suitability of polling venues also remains an operational risk, as changes in venue availability may affect the Council's ability to provide convenient and accessible polling places in all areas.
- 2.2 The review also presents opportunities to improve the overall polling arrangements across the borough. These include better alignment of polling districts with parish governance arrangements, improved clarity for electors, a better voter experience, and the opportunity to further strengthen accessibility at polling stations wherever reasonable and practicable.
- 2.3 Equality considerations have been central to the review. Disabled access has been considered throughout, including access into and within polling stations, the availability of appropriate equipment and facilities, and the ability of electors to vote independently and in secret wherever reasonably practicable. No adverse equality impacts have been identified from the proposed arrangements. The review supports participation for all electors by seeking to ensure that polling places are accessible, inclusive and convenient, while continuing to meet the statutory requirements for polling district and polling place reviews.

3. OTHER OPTIONS CONSIDERED

- 3.1 It is a legal requirement to undertake this review.

4. REPUTATION AND COMMUNICATIONS CONSIDERATIONS

- 4.1 A statutory consultation has been undertaken as part of the polling district and polling place review, giving electors, elected members, parish and town councils, and other interested stakeholders the opportunity to comment on the existing and proposed arrangements. This supports transparent decision making by ensuring that representations have been considered alongside the

statutory requirements, Electoral Commission guidance, the Returning Officer's comments, local governance arrangements, accessibility considerations and operational deliverability.

- 4.2 Following Council's decision, the outcome of the review will be published, together with the agreed polling district and polling place arrangements and any supporting maps. Where changes directly affect electors, appropriate communication will be issued to explain the revised arrangements and ensure that electors are aware of their designated polling place before future scheduled elections. Clear publication and direct communication will help minimise confusion, maintain confidence in the review process and support effective participation in the democratic process.

5. FINANCIAL CONSIDERATIONS

There will be minimal financial costs involved in implementing the revised polling districts undertaking the review; however premises charges are often increasing and where there are no other suitable building available portacabins will be considered.

6. CHILDREN AND YOUNG PEOPLE IMPLICATIONS

There are no children and young people implications arising from this report.

7. CLIMATE CHANGE, NATURE RECOVERY AND ENVIRONMENTAL IMPLICATIONS

There are no climate change or environmental implications arising from the recommendations in this report.

8. PUBLIC HEALTH, HEALTH INEQUALITIES AND MARMOT IMPLICATIONS

- 8.1 Accessible polling arrangements support democratic inclusion by helping ensure that all electors are able to participate in the democratic process. While the recommendations in this report do not create direct public health implications, the location, accessibility and suitability of polling places can affect an elector's ability to take part in elections independently, safely and with confidence.
- 8.2 Particular consideration has been given to disabled electors and those with limited mobility, including access into and within polling stations, the availability of suitable facilities and the ability of electors to vote independently and in secret wherever reasonably practicable. Ensuring reasonable access to polling places helps reduce barriers to participation and supports the Council's wider commitment to equality, inclusion and stronger communities.
- 8.3 The review also supports the principles of the Marmot approach by recognising the importance of participation, community empowerment and access to local services and civic life. By seeking to ensure that polling places are accessible, inclusive and convenient, the review helps support fair access to democratic participation and reduces the risk of existing inequalities creating further

barriers for electors.

9. CONSULTATION WITH SCRUTINY

- 9.1 All elected members were invited to partake in the consultation and feedback any concerns or suggestions for consideration.

10. FINANCIAL IMPLICATIONS

- 10.1 As outlined within section 5, there are minimal costs that would result from the implementation of the proposed changes to polling districts and polling places.

11. LEGAL IMPLICATIONS

- 11.1 The Council is required under the Representation of the People Act 1983 to divide its area into polling districts and to designate polling places for those districts. In carrying out a review the Council must follow the statutory process set out in Schedule A1 to the 1983 Act, including publication of notice, consultation, consideration of representations and publication of the outcome.
- 11.2 Following due process, Council is now presented with a range of options and recommendations from the Electoral Registration Officer and Returning Officer as set out.

12. HUMAN RESOURCES IMPLICATIONS

- 12.1 There are no HR implications directly arising from the report.

13. WARD IMPLICATIONS

- 13.1 The proposals contained within this report and its appendices will, if agreed, affect Immingham and Waltham polling districts.

14. BACKGROUND PAPERS

- 14.1 The Electoral Commission's Guidance on Reviews of polling districts, polling places and polling stations

Introduction

This document sets out the Returning Officer's considerations and proposed polling arrangements following the review of polling districts, polling places and polling stations in North East Lincolnshire. It captures the revised polling places where necessary, summarises the feedback received during consultation, and makes proposals throughout for consideration and approval.

The schedules that follow should be read in conjunction with the covering report and any accompanying appendices. Together, these documents provide the context for the review, the consultation outcomes, and the basis for the Returning Officer's proposed arrangements for each ward and polling district.

The review has particular regard to the creation of new polling districts required for Immingham Town Council, following the Parish Council Community Governance Review completed in March 2024. The proposals also reflect wider comments, observations and operational considerations relating to polling arrangements across the borough, including accessibility, suitability of venues and practical delivery for electors, polling staff and the Returning Officer.

GREAT GRIMSBY AND CLEETHORPES PARLIAMENTARY CONSTITUENCY**CROFT BAKER WARD****Town / Parish Council: None**

IMMINGHAM WARD

Town / Parish Councils in this area: Habrough (IM1), Stallingborough (IM2), Immingham Town Council (IM3, IM4, IM5, IM6, IM7)

Polling District	Polling Place	Total Electors at 01.06.26 (Postal Votes)	Special Considerations	Current Polling Station	Returning Officer's Comments
IM1	Habrough Village Hall, polling district IM1 or any adjoining polling districts	510 (72)	None	Habrough Village Hall, Station Road, Habrough	The Returning Officer is proposing that no changes are made to the Polling Districts, Places or Stations in IM1 or IM2.
IM2	Stallingborough Village Hall, polling district IM2 or any adjoining polling districts	1091 (119)	None	Stallingborough Village Hall, Station Road, Stallingborough	
IM3	Civic Centre, polling district IM3 or any adjoining polling districts	2500 (261)	Double Polling Station	Burton Room, Immingham Civic Centre, Pelham Road, Immingham	There were 21 responses received for the Immingham ward, six of those voted on the proposed polling districts; the remaining votes on the districts came from the other responses to the consultation.
IM4	Civic Centre, polling district IM4 or any adjoining polling districts	874 (109)		Burton Room, Immingham Civic Centre, Pelham Road, Immingham	
IM5	Trinity Methodist Church, polling district IM5 or any adjoining polling districts	1198 (112)	None	Trinity Methodist Church, corner Margaret St/Pelham Road Immingham	Based on the growing electorate, and considering the legal basis for creating polling districts, the Returning Officer is proposing Option 3 for approval. This would result in five districts remaining to cover the new North and South ward boundaries for Immingham Town Council.
IM6	Bert Boyden Centre, polling district IM6 or any adjoining polling districts	1728 (94)	None	Bert Boyden Centre, Carver Road, Immingham	
IM7	Immingham Christian Centre, polling district IM7 or any adjoining polling districts	1123 (113)	None	Immingham Christian Centre, Pelham Road, Immingham	

SCARTHOTH WARD**Town / Parish Councils in this area: None**

Polling District	Polling Place	Total Electors at 01.06.26 (Postal Votes)	Special Considerations	Current Polling Station	Returning Officer's Comments
SC1	Scartho Gateway Academy, polling district SC1 or any adjoining polling districts	2642 (190)	Split Register to address large electorate	Dining Hall, Scartho Gateway Academy, Matthew Telford Park, Grimsby	One response was received for Scartho, regarding SC5. The response was positive, raising no concerns. The Returning Officer has no concerns and proposes that the Polling Places be updated to reflect their current arrangements.

After seeing the proposed polling districts for Immingham, which option do you prefer?	Option 3

Additional comments:

Makes sense with the growth of new housing to split the town down the main road and then in half again. All voting could be done at the Civic Centre as the building is accessible, has lots of parking and many people turn up there anyway when they see the polling station signs. 1 building for all of Immingham would eliminate people not knowing where to go (we know people don't read their paperwork), and will save both NELC and Imm Town Council money in building hire, staffing, equipment delivery, inspectors visits etc. Also safer for staff to be in the 1 well lit, staffed (caretaker in all day) building all day rather than lots of different spaces.

Additional comments:

Rather than having 5 polling districts within
imminham - 4 is more than plenty, in fact I
would suggest we only need 2 polling districts as
we seem to be too heavy with local councillors,
the question is do we need so many for a
reasonably sized town?

Yes

Option 1

Additional comments:

Suggestions for additional/other polling stations:
Roval Drive (pavilion/mobile container); unused
part of Stallingborough road garage; unused area
next to Pure Dental clinic for mobile container.
Two polling stations can be used within the Civic
Centre altho access is not great for elderly
crossing road from car park.

SECTION 4 — Q12 OPEN-ENDED RESPONSES

Open Ended Text Data

Q16

Additional comments:

No.	Response ID	Data
Additional comments:		
1	67798331	
2	67860079	
3	67934393	
4	68154953	The map was hard to understand
5	68219125	
6	68240257	Makes sense with the growth of new housing to split the town down the main road and then in half again. All voting could be done at the Civic Centre as the building is accessible, has lots of parking and many people turn up there anyway when they see the polling station signs. 1 building for all of Immingham would eliminate people not knowing where to go (we know people don't read their paperwork), and will save both NELC and Imm Town Council money in building hire, staffing, equipment delivery, inspectors visits etc. Also safer for staff to be in the 1 well lit, staffed (caretaker in all day) building all day rather than lots of different spaces.
7	68249648	
8	68329995	
9	68368516	
10	68679287	Rather than having 5 polling districts within Immingham - 4 is more than plenty, in fact I would suggest we only need 2 polling districts as we seem to be too heavy with local councillors, the question is do we need so many for a reasonably sized town?
11	68849190	

			Suggestions for additional/other polling stations: Roal Drive (pavilion/mobile container); unused part of Stallingborough road garage; unused area next to Pure Dental clinic for mobile container. Two polling stations can be used within the Civic Centre altho access is not great for elderly crossing road from car park.
12		69102931	
13		70288032	
14		70302683	It isn't clear what districts are going to change
