For the attention of Holly Hall

Dear Holly

**A180 PYEWIPE ROUNDABOUT
CHALLENGE FUND BID 2017**

Thank you for your consultation on the proposed maintenance works and improvements to the A180 at Pyewipe Roundabout which we understand you are preparing for submission for the next round of DfT's Challenge Fund.

We have reviewed the information you have supplied and I can confirm that we do not have any issues with the proposals as presented. However, we would like to work with you as the proposals are developed so that details around maintenance boundaries and responsibilities are clearly defined at the interfaces, the detail around the operation and maintenance of the signals on the eastbound approach to the roundabout is also of interest and we would need to be consulted on the detail around this.

We look forward to working with you further on this as the proposals develop, please do not hesitate to contact me should you wish to discuss any of the above.

Yours sincerely

Sarah Watson-Quirk
