Before setting off

- It’s well worth giving your bike a quick once-over before setting off, check your gears and brakes are in good condition, your tyres are pumped up properly and if you’re going out at night that your lights work.
- Check the weather before setting off and dress accordingly.
- Check that the route is suitable for you and your party.
- If possible let someone know where you are going and make sure that you carry a fully charged mobile phone.
- Carrying a small cycle toolkit and puncture repair kit can save a long walk home if something goes wrong.
- If you’re going on a longer ride then carrying a drink and an energy snack is advisable.
