Comments for Planning Application DM/0221/19/FUL

Application Summary

Application Number: DM/0221/19/FUL
Address: Bradley Football Development Centre Bradley Road Grimsby North East Lincolnshire DN37 0AG
Proposal: Install new stadium artificial grass pitch (AGP) in lieu of existing, with associated fencing, hardsurfaces, upgraded floodlighting system and structures with 3.5m high acoustic barrier to the south and western boundaries. Install new community AGP with associated structures, hardsurfaces, fencing, floodlighting and grass mound. Divert existing footpath. Upgrade floodlighting system to existing community AGP and adjust existing ball stop fencing. Install new vehicular access from Bradley Road to create a new one way circulation system and extend existing car park with new lighting columns, electrical charging points and landscaping. Re-arrange existing grass pitches *Amendment to access gate opening times (until 10pm) and a paragraph within the Transport Assessment (p14, 3.2.4) and Travel Plan (p11, 4.1.4) relating to Public Rights of Way*

Comment Details

Commenter Type: Neighbour
Stance: Customer objects to the Planning Application
Comment Reasons:
Comment:I strongly object to this application

NOISE :- There is often too much noise from the football pitches. From our garden we can clearly hear adults swearing, shouting and a general drone of noise on a weekly basis while playing and watching football.
We can also hear the noise inside our home, even with the windows closed. The proposed noise barrier will provide little to no shielding from this as it doesn't encapsulate the whole boundary. Allow this to be open every day of the week until 10pm is unacceptable.

TRAFFIC :- The traffic down Bradley Road has increased a lot in recent months and increasing the capacity of the football ground will add to this. There has already been accidents from vehicles pulling out of the site and deaths on this road.
The current 180 parking spaces is clearly not enough as we regularly see vehicles parking on the verge the full length of the road and adding and extra 120 spaces but adding in essence 2 more

pitches, 300 will not be enough to cover the additional vehicles.
Vehicles regularly park on the verges and footpaths blocking access to pedestrians, push chairs and wheel chairs.
Larger vehicles cannot turn into or out of the current entrance without taking up both sides of the road ans Bradley road is not wide enough for these vehicles to make the turn - often causing hazards.
The road with the current amount of traffic is already a safety issue and can only get worse with the purposed additions.

LIGHT :- The light pollution, is currently horrendous. We have light flooding into our garden and home until late at night, additions off flood lights will make this far worse.

I am not complaining about the current situation with the Football Development Centre as it is, although the traffic could be better managed, but I do object to the growing of this site and feel it would be totally out of proportion with the area

I do think its disgusting that so many copied letters of 'support' have been added onto this application - especially since none look like neighbours to the site and will have no idea of the impact this has.

In summary I request that you reject this application.

Dear Sir/Madam,

Ref: Plannning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my objections to the above planning application on the following grounds:

I believe that the proposed extension will have a hugely detrimental effect on the quality of life and health of the residents who live anywhere near the Bradley Pitches site.

Residents already suffer as a result of the existing Football Centre and are plagued with noise and light pollution, traffic congestion and pollution, litter and anti-social behaviour issues. There are supposed to be management systems in place to control these problems, but these have not been effective. If they are not effective now why should this change if the usage of the facility is meant to increase by at least another 300% and traffic movements by 400%?

A lot of the residents are elderly and spend a lot of time in their homes, often through illness. Those that work want to enjoy their family life at home. Everyone should have the right to some quiet enjoyment of their homes and gardens without the threat of constant disturbance.

I think that the opening times (8am – 10 pm every week night and 8 – 6pm every weekend of the year) are totally unreasonable. The facility will be in intensive use 364 days a year. The potential for disturbance of all kinds, but particularly noise, traffic and light pollution issues will be relentless.

I would like to ask that the Planning Committee consider very carefully the lasting and devastating implications and repercussions this proposal would have on the nearby residents. Consequently I would ask that they refuse the application.

Yours sincerely

Dear Sir/Madam,

Ref: Planning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my support to the above planning application on the following grounds:

I believe that the proposed development will improve the sporting facilities in the area and provide a better place for all ages to be able to participate in sport, the area is short of facilities that are at the highest level and this would be a major step in the right direction

I am aware that the facility provides activities in which people from all ages from pre-school to active seniors can participate on a weekly basis, which is good for the health and well-being of all ages in the area. The activities are not just football either, with a wide range of activities taking place to cater for all

Furthermore this would give the centre the opportunity for multiple clubs to train in a safe and secure environment giving players the opportunity to develop their skills and live a healthy and active lifestyle, to which currently many clubs can't access due to the facility being so busy and in high demand

I would like to ask that the Planning Committee consider very carefully the amount people that this development could help improve their opportunities to be healthy whilst also enabling many more to develop their footballing skills in a safe environment in which the town could be proud of

Comment Reasons:
Comment:As a regular user of this facility through the Grimsby Ancient Mariners WFC, who travel far and wide to various venues, we can truly state that the facility at Bradley is probably one of the best of its kind in the country and the addition of more artificial pitches must be a benefit to the town and the surrounding area. We regularly have over 60 members enjoying the facilities but we are nearing our capacity and this development would enable us also to expand. Please support this application as it will enhance already an excellent facility.

Re. Application DM/0221/19/FUL for the creation of an external Sports Pitch and one replacement Pitch together with associated Floodlighting, fencing, grass mounds, car park extension with new vehicular access.

Dear Cheryl,

I am writing to object to the current application by North East Lincolnshire Council to extend significantly the usage of the Bradley Pitches [Bradley Football Development Centre.]

I **strongly object** to this application on the following grounds:

1. Public Safety Issues

The amount of traffic on Bradley road has increased significantly over the past few years with the increase in housebuilding at Waltham and the advent of Sat. Nav. that has encouraged many commercial vehicles to use Bradley road as a short cut. Large trucks and articulated vehicles can now be seen on a regular basis that was unprecedented a few years ago. The road is narrow and can barely cope with the current level of traffic let alone a large increase due to the expansion of the Bradley Football Development Centre. The proposed new entrance will cause severe congestion all the way back to Bradley Cross roads especially at peak times. Residents near the Cross roads who often park vehicles on the roadside outside their houses will endure constant noise and congestion. It will also make it hazardous for pedestrians to cross the road. The road already has a bad history of speeding and traffic accidents.

2. Public Nuisance

Noise generated by outdoor events hosted throughout the week already produce significant annoyance to residents especially the banging of kickboards, screaming of fans and bad language which will increase threefold if the proposed extension is allowed. There is also little evidence that the proposed acoustic barriers will have any significant effect on noise levels as similar schemes used to mask road noise show.
This quiet, semi-rural area is likely to be further harmed because of the unrestrictive nature of the application. The planning application allows continuous use from early morning to 10 pm. throughout the week. Residents are already disturbed by light pollution from the

floodlights, some of which are aimed directly at bedroom windows of houses running alongside Bradley road.

3. Conversion of area to a Commercial enterprise Zone

Bradley was a peaceful semi-rural area populated mainly by senior citizens with free use open fields for various recreational activities but now it is being turned into a commercial enterprise zone for football only, at the expense of the residents' quality of life.
The application will encourage more antisocial activity and alcohol consumption. Evidence can be seen after every match with all the litter and beer cans strewn along Bradley road.
As a resident of what was a beautiful, peaceful and delightful community, I feel strongly that my right to a peaceful, safe life is being eroded by the change in usage of the Bradley Pitches area. This proposal threatens the quality of my life and that of all residents in the area.
NELC Planning cannot possibly countenance a threefold expansion of this facility especially at Taxpayer expense. There must be other areas of the town that are more in need of this type of investment.

In summary, I urge the licensing committee to use their discretionary powers to reject this application and draw their attention to the destructive nature of this proposal.

Yours Sincerely,

Keith D. Flint

If they are not effective now why should this change if the usage of the facility is meant to increase by at least another 300% and traffic movements by 400%?

A lot of the residents are elderly and spend a lot of time in their homes, often through illness. Those that work want to enjoy their family life at home. Everyone should have the right to some quiet enjoyment of their homes and gardens without the threat of constant disturbance.

I think that the opening times (8am – 10 pm every week night and 8 – 6pm every weekend of the year) are totally unreasonable. The facility will be in intensive use 364 days a year. The potential for disturbance of all kinds, but particularly noise, traffic and light pollution issues will be relentless.

I would like to ask that the Planning Committee consider very carefully the lasting and devastating implications and repercussions this proposal would have on the nearby residents. Consequently I would ask that they refuse the application.

Yours sincerely

Dear Sir/Madam,

Ref: Planning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my support to the above planning application on the following grounds:

I believe that the proposed development will improve the sporting facilities in the area and provide a better place for all ages to be able to participate in sport, the area is short of facilities that are at the highest level and this would be a major step in the right direction

I am aware that the facility provides activities in which people from all ages from pre-school to active seniors can participate on a weekly basis, which is good for the health and well-being of all ages in the area. The activities are not just football either, with a wide range of activities taking place to cater for all

Furthermore this would give the centre the opportunity for multiple clubs to train in a safe and secure environment giving players the opportunity to develop their skills and live a healthy and active lifestyle, to which currently many clubs can't access due to the facility being so busy and in high demand

I would like to ask that the Planning Committee consider very carefully the amount people that this development could help improve their opportunities to be healthy whilst also enabling many more to develop their footballing skills in a safe environment in which the town could be proud of

Yours sincerely

Comments for Planning Application DM/0221/19/FUL

Application Summary

Application Number: DM/0221/19/FUL
Address: Bradley Football Development Centre Bradley Road Grimsby North East Lincolnshire DN37 0AG
Proposal: Install new stadium artificial grass pitch (AGP) in lieu of existing, with associated fencing, hardsurfaces, upgraded floodlighting system and structures with 3.5m high acoustic barrier to the south and western boundaries. Install new community AGP with associated structures, hardsurfaces, fencing, floodlighting and grass mound. Divert existing footpath. Upgrade floodlighting system to existing community AGP and adjust existing ball stop fencing. Install new vehicular access from Bradley Road to create a new one way circulation system and extend existing car park with new lighting columns, electrical charging points and landscaping. Re-arrange existing grass pitches
Case Officer: Cheryl Jarvis

Customer Details

Name: Mr Nicholas Frame
Address: 34 Bradley Road, Bradley Grimsby

Comment Details

Commenter Type: Neighbour
Stance: Customer objects to the Planning Application
Comment Reasons:
Comment:I wish to register my objection to the further development of the Bradley Football Centre.
Firstly, this application is fundamentally the same as the one which was overwhelming rejected by the planning committee last year. The relocation of the new AWP and the inclusion of a new entrance to the facility being the only changes. Neither of these will do anything to alleviate either the noise of increased activity or traffic congestion. In fact, an extra 120 car parking will increase traffic and increase the amount of pollution.
The refusal of the previous application was on the grounds of noise creation, so how could this application be acceptable if more noise and traffic is created.
The proposed introduction of mounds and sound barriers will do little to reduce the noise disturbance since wind will deflect sound over such barriers. Also, the testing done by audio experts was done on existing conditions, so how can they predict what it will be like when there is 300% increase in usage?
Secondly, just because separate entrance and exits are being proposed, and an increase in car parking of 120 spaces, that means that 300+ vehicles will be moving in and out of the facility onto an already very busy Bradley Road. In addition this will also produce additional noise, disturbance, and pollution to the local residents.
I hope that the Planning Committee stick to their previous decision and refuse this application on

the same grounds as before.

Subject: Bradley Pitches.

Hi Cheryl,

I would like to give you my thoughts on the planning of this development again. So another application and more worry for us, the residents. We will be subjected to more noise, swearing and parking issues with verge parking. All of which I don't really want. It's disgusting that I pay £230 a month for council tax and don't even get a say in what the council does outside my house. I maintain the lawns on the front of my house and am proud of how it looks. Then fans just park all over it when it suits them with no respect for what the locals want. Disgusting, and by making the facility bigger you will only make this worse for us, the residents. I strongly oppose this development for many reason but most of all due to safety. There will be a car crash out there one day with increased traffic. And on top of that you have motorbikes riding around all day on the pitches even whilst games are going on and the police don't really do a great deal to scare them off. I think the facility is big enough as it is. Let them build another one somewhere else on their fronts.

My thoughts.

Ian Towle

Dear Sir/Madam,

Ref: Planning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my support to the above planning application on the following grounds:

I believe that the proposed development will improve the sporting facilities in the area and provide a better place for all ages to be able to participate in sport, the area is short of facilities that are at the highest level and this would be a major step in the right direction

I am aware that the facility provides activities in which people from all ages from pre-school to active seniors can participate on a weekly basis, which is good for the health and well-being of all ages in the area. The activities are not just football either, with a wide range of activities taking place to cater for all

Furthermore this would give the centre the opportunity for multiple clubs to train in a safe and secure environment giving players the opportunity to develop their skills and live a healthy and active lifestyle, to which currently many clubs can't access due to the facility being so busy and in high demand

I would like to ask that the Planning Committee consider very carefully the amount people that this development could help improve their opportunities to be healthy whilst also enabling many more to develop their footballing skills in a safe environment in which the town could be proud of

Yours sincerely

Dear Sir/Madam,

Ref: Planning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my support to the above planning application on the following grounds:

I believe that the proposed development will improve the sporting facilities in the area and provide a better place for all ages to be able to participate in sport, the area is short of facilities that are at the highest level and this would be a major step in the right direction

I am aware that the facility provides activities in which people from all ages from pre-school to active seniors can participate on a weekly basis, which is good for the health and well-being of all ages in the area. The activities are not just football either, with a wide range of activities taking place to cater for all

Furthermore this would give the centre the opportunity for multiple clubs to train in a safe and secure environment giving players the opportunity to develop their skills and live a healthy and active lifestyle, to which currently many clubs can't access due to the facility being so busy and in high demand

I would like to ask that the Planning Committee consider very carefully the amount people that this development could help improve their opportunities to be healthy whilst also enabling many more to develop their footballing skills in a safe environment in which the town could be proud of

Yours sincerely

Mr SMARAJIT ROY

16th April 2019

Dear Sir/Madam,

Ref: Plannning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my objections to the above planning application on the following grounds:

I believe that the proposed extension will have a hugely detrimental effect on the quality of life and health of the residents who live anywhere near the Bradley Pitches site.

Residents already suffer as a result of the existing Football Centre and are plagued with noise and light pollution, traffic congestion and pollution, litter and anti-social behaviour issues. There are supposed to be management systems in place to control these problems, but these have not been effective. If they are not effective now why should this change if the usage of the facility is meant to increase by at least another 300% and traffic movements by 400%?

A lot of the residents are elderly and spend a lot of time in their homes, often through illness. Those that work want to enjoy their family life at home. Everyone should have the right to some quiet enjoyment of their homes and gardens without the threat of constant disturbance.

I think that the opening times (8am – 10 pm every week night and 8 – 6pm every weekend of the year) are totally unreasonable. The facility will be in intensive use 364 days a year. The potential for disturbance of all kinds, but particularly noise, traffic and light pollution issues will be relentless.

I would like to ask that the Planning Committee consider very carefully the lasting and devastating implications and repercussions this proposal would have on the nearby residents. Consequently I would ask that they refuse the application.

Yours sincerely

Comments for Planning Application DM/0221/19/FUL

Application Summary

Application Number: DM/0221/19/FUL
Address: Bradley Football Development Centre Bradley Road Grimsby North East Lincolnshire DN37 0AG
Proposal: Install new stadium artificial grass pitch (AGP) in lieu of existing, with associated fencing, hardsurfaces, upgraded floodlighting system and structures with 3.5m high acoustic barrier to the south and western boundaries. Install new community AGP with associated structures, hardsurfaces, fencing, floodlighting and grass mound. Divert existing footpath. Upgrade floodlighting system to existing community AGP and adjust existing ball stop fencing. Install new vehicular access from Bradley Road to create a new one way circulation system and extend existing car park with new lighting columns, electrical charging points and landscaping. Re-arrange existing grass pitches

Comment Details

Commenter Type: Neighbour
Stance: Customer objects to the Planning Application
Comment Reasons:
Comment:This development will cause traffic problems on a road on which vehicles already speed on, once they are round the roundabout they think that they can just put their foot down and away they go! Traffic calming measures would be needed if this proposal where to go ahead. More of this public recreation land is being fenced off, making it unusable for the majority. Football also attracts very loud shouting including extremely foul language. easily heard in our gardens and houses. Parking will continue on the verges, as no one is prepared to take responsibility for this.

Comment Details

Commenter Type: Neighbour
Stance: Customer objects to the Planning Application
Comment Reasons:
Comment:I am strongly against this application, and strongly object to it. There are already issues with noise, traffic, litter, lighting, anti social behaviour any further extension to the site will only increase all of these things to the detriment of the surrounding residents. There shouldn't be any extension AT ALL. The traffic is already bad, the road as it stands at present desperately needs Traffic calming measures. There is repeated verge parking, and no one seems to have the power to stop this, speeding is common place. This road has been asked to deal with a massive amount of traffic. I have lived here for over 40 years, and this little semi rural road is now unable to safely cope with the increased traffic and the speeding, it has had more than it's fair share of fatalities. Traffic certainly does not need to be increased by 400 per cent. The noise levels are already ridiculous, being able to hear the players and spectators shouting and swearing is just not acceptable. The lighting is intrusive to the houses opposite. The litter has increased massively, and the so call clear up after matches is not done properly, just paying lip service to it. Anti social behaviour has increased in this area since the centre has been there. Rubbish is thrown in our front gardens as people walk by. The application for extending has already been refused and thrown out by the planning committee, we should not be going down this route again. The council should not be spending any money on this at all. We have had to suffer cuts in services i.e. reduced refuse collection, so the money the council has should not be spent on such things. It's no

good saying it promotes health for NELC residents. What about promoting the local residents Health and Well being, their mental health will suffer from this, not being able to relax in our own gardens without the stress of listening to the noise created at the Centre. We suffer already due to this Football Centre, we certainly do not need further hassle from an extension. The local residents have rights too. I would ask the planning committee to refuse this application.

The activities are not just football either, with a wide range of activities taking place to cater for all

Furthermore this would give the centre the opportunity for multiple clubs to train in a safe and secure environment giving players the opportunity to develop their skills and live a healthy and active lifestyle, to which currently many clubs can't access due to the facility being so busy and in high demand

I would like to ask that the Planning Committee consider very carefully the amount people that this development could help improve their opportunities to be healthy whilst also enabling many more to develop their footballing skills in a safe environment in which the town could be proud of

Yours sincerely

Comments for Planning Application DM/0221/19/FUL

Application Summary

Application Number: DM/0221/19/FUL
Address: Bradley Football Development Centre Bradley Road Grimsby North East Lincolnshire DN37 0AG
Proposal: Install new stadium artificial grass pitch (AGP) in lieu of existing, with associated fencing, hardsurfaces, upgraded floodlighting system and structures with 3.5m high acoustic barrier to the south and western boundaries. Install new community AGP with associated structures, hardsurfaces, fencing, floodlighting and grass mound. Divert existing footpath. Upgrade floodlighting system to existing community AGP and adjust existing ball stop fencing. Install new vehicular access from Bradley Road to create a new one way circulation system and extend existing car park with new lighting columns, electrical charging points and landscaping. Re-arrange existing grass pitches

Comment Details

Commenter Type: Member of the Public
Stance: Customer made comments in support of the Planning Application
Comment Reasons:
Comment:The area is chronically under-resourced in terms of suitable artificial surfaces. The clear success of the county's only 3G/4G full-sized pitch based at Bradley Football Development Centre, which facilitates sessions for young & old, from local community groups to school-based organisations, grassroots clubs and even as far as professional clubs looking to access a suitable facility at short notice, highlight its importance.

Should there be a duplicate facility available, it increases the amount of contact time such organisations listed above can provide suitable provision. Furthermore, it may well support greater lecvels of participation in football, resulting in decreased obesity levels, increased fitness levels & higher sense of self-esteem. Football loses participants at an alarming rate in all age ranges & a contributing key factor in this has been down to a lack of suitable facilities - a fact well-documented in many studies conducted in recent years.

Another suitable artificial pitch is an absolute no-brainer whatsoever, especially with the existing infrastructure at Bradley Football Development Centre already in place to support this.

Dear Sir/Madam,

Ref: Planning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my support to the above planning application on the following grounds:

I believe that the proposed development will improve the sporting facilities in the area and provide a better place for all ages to be able to participate in sport, the area is short of facilities that are at the highest level and this would be a major step in the right direction

I am aware that the facility provides activities in which people from all ages from pre-school to active seniors can participate on a weekly basis, which is good for the health and well-being of all ages in the area. The activities are not just football either, with a wide range of activities taking place to cater for all

Furthermore this would give the centre the opportunity for multiple clubs to train in a safe and secure environment giving players the opportunity to develop their skills and live a healthy and active lifestyle, to which currently many clubs can't access due to the facility being so busy and in high demand

I would like to ask that the Planning Committee consider very carefully the amount people that this development could help improve their opportunities to be healthy whilst also enabling many more to develop their footballing skills in a safe environment in which the town could be proud of

Dear Sir/Madam,

Ref: Plannning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my objections to the above planning application on the following grounds:

I believe that the proposed extension will have a hugely detrimental effect on the quality of life and health of the residents who live anywhere near the Bradley Pitches site.

Residents already suffer as a result of the existing Football Centre and are plagued with noise and light pollution, traffic congestion and pollution, litter and anti-social behaviour issues. There are supposed to be management systems in place to control these problems, but these have not been effective. If they are not effective now why should this change if the usage of the facility is meant to increase by at least another 300% and traffic movements by 400%?

A lot of the residents are elderly and spend a lot of time in their homes, often through illness. Those that work want to enjoy their family life at home. Everyone should have the right to some quiet enjoyment of their homes and gardens without the threat of constant disturbance.

I think that the opening times (8am – 10 pm every week night and 8 – 6pm every weekend of the year) are totally unreasonable. The facility will be in intensive use 364 days a year. The potential for disturbance of all kinds, but particularly noise, traffic and light pollution issues will be relentless.

I would like to ask that the Planning Committee consider very carefully the lasting and devastating implications and repercussions this proposal would have on the nearby residents. Consequently I would ask that they refuse the application.

Yours sincerely

REF. DM/0221/19/FUL

16-4-19

Dear Madam.

I understand that the area known as Bradley Pitches is to be made larger to allow for more football matches to take place, daytime evening and weekends with planning permission.

Barry Ave. is mostly occupied by elderly retired residents, and we are already bombarded with cheering and shouting etc. at weekends, when trying to enjoy our gardens and homes.

Also Bradley Road is very narrow for the volume of traffic expected, and weekends at the moment are congested and dangerous with cars parking on the grass verges.

I am not against the centre as it is, I do attend a class there once a week myself.

But to extend it any more I feel sure will upset most of the residents who are within the area.

Yours faithfully

Comment Reasons:
Comment:I would like to object against this planning application.

The setup we have at present does create noise but at an acceptable level for me living on Laceby Road, however I am concerned that the proposed extension to the facilities will create a lot more noise as the proposed pitches move closer towards my property.

Stephen Crescent residents will find the extra noise unbearable I'm sure and we residents living close to the proposed extension will not be able to enjoy our gardens and indeed leave our doors and windows open if this proposed extension gets the go ahead.

I notice that sound barriers are not being considered for the North side of the development, North is the side that directly faces the properties on Stephen Crescent and those of us living on Laceby Road which means that we will get no respite at all when the pitches are being used and because this is more than a facility for Grimsby and surrounding area, noise, litter and parking is going to increase considerably and in fairness litter in this area is already a big issue which the Bradley Football Development System appear not to be able to keep on top of.

Comments for Planning Application DM/0221/19/FUL

Application Summary

Application Number: DM/0221/19/FUL
Address: Bradley Football Development Centre Bradley Road Grimsby North East Lincolnshire DN37 0AG
Proposal: Install new stadium artificial grass pitch (AGP) in lieu of existing, with associated fencing, hardsurfaces, upgraded floodlighting system and structures with 3.5m high acoustic barrier to the south and western boundaries. Install new community AGP with associated structures, hardsurfaces, fencing, floodlighting and grass mound. Divert existing footpath. Upgrade floodlighting system to existing community AGP and adjust existing ball stop fencing. Install new vehicular access from Bradley Road to create a new one way circulation system and extend existing car park with new lighting columns, electrical charging points and landscaping. Re-arrange existing grass pitches

Dear Sir/Madam,

Ref: Planning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my support to the above planning application on the following grounds:

I believe that the proposed development will improve the sporting facilities in the area and provide a better place for all ages to be able to participate in sport, the area is short of facilities that are at the highest level and this would be a major step in the right direction

I am aware that the facility provides activities in which people from all ages from pre-school to active seniors can participate on a weekly basis, which is good for the health and well-being of all ages in the area. The activities are not just football either, with a wide range of activities taking place to cater for all

Furthermore this would give the centre the opportunity for multiple clubs to train in a safe and secure environment giving players the opportunity to develop their skills and live a healthy and active lifestyle, to which currently many clubs can't access due to the facility being so busy and in high demand

I would like to ask that the Planning Committee consider very carefully the amount people that this development could help improve their opportunities to be healthy whilst also enabling many more to develop their footballing skills in a safe environment in which the town could be proud of

Yours sincerely

14 April 2019

Dear Sir/Madam,

Ref: Plannning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my objections to the above planning application on the following grounds:

I believe that the proposed extension will have a hugely detrimental effect on the quality of life and health of the residents who live anywhere near the Bradley Pitches site.

Residents already suffer as a result of the existing Football Centre and are plagued with noise and light pollution, traffic congestion and pollution, litter and anti-social behaviour issues. There are supposed to be management systems in place to control these problems, but these have not been effective. If they are not effective now why should this change if the usage of the facility is meant to increase by at least another 300% and traffic movements by 400%?

A lot of the residents are elderly and spend a lot of time in their homes, often through illness. Those that work want to enjoy their family life at home. Everyone should have the right to some quiet enjoyment of their homes and gardens without the threat of constant disturbance.

I think that the opening times (8am – 10 pm every week night and 8 – 6pm every weekend of the year) are totally unreasonable. The facility will be in intensive use 364 days a year. The potential for disturbance of all kinds, but particularly noise, traffic and light pollution issues will be relentless.

I would like to ask that the Planning Committee consider very carefully the lasting and devastating implications and repercussions this proposal would have on the nearby residents. Consequently I would ask that they refuse the application.

Yours sincerely [redacted]

G. ABBLEYARD

If they are not effective now why should this change if the usage of the facility is meant to increase by at least another 300% and traffic movements by 400%?

A lot of the residents are elderly and spend a lot of time in their homes, often through illness. Those that work want to enjoy their family life at home. Everyone should have the right to some quiet enjoyment of their homes and gardens without the threat of constant disturbance.

I think that the opening times (8am – 10 pm every week night and 8 – 6pm every weekend of the year) are totally unreasonable. The facility will be in intensive use 364 days a year. The potential for disturbance of all kinds, but particularly noise, traffic and light pollution issues will be relentless.

I would like to ask that the Planning Committee consider very carefully the lasting and devastating implications and repercussions this proposal would have on the nearby residents. Consequently I would ask that they refuse the application.

Yours sincerely

Dear Sir/Madam,

Ref: Planning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my support to the above planning application on the following grounds:

I believe that the proposed development will improve the sporting facilities in the area and provide a better place for all ages to be able to participate in sport, the area is short of facilities that are at the highest level and this would be a major step in the right direction

I am aware that the facility provides activities in which people from all ages from pre-school to active seniors can participate on a weekly basis, which is good for the health and well-being of all ages in the area. The activities are not just football either, with a wide range of activities taking place to cater for all

Furthermore this would give the centre the opportunity for multiple clubs to train in a safe and secure environment giving players the opportunity to develop their skills and live a healthy and active lifestyle, to which currently many clubs can't access due to the facility being so busy and in high demand

I would like to ask that the Planning Committee consider very carefully the amount people that this development could help improve their opportunities to be healthy whilst also enabling many more to develop their footballing skills in a safe environment in which the town could be proud of

Comments for Planning Application DM/0221/19/FUL

Application Summary
Application Number: DM/0221/19/FUL
Address: Bradley Football Development Centre Bradley Road Grimsby North East Lincolnshire DN37 0AG
Proposal: Install new stadium artificial grass pitch (AGP) in lieu of existing, with associated fencing, hardsurfaces, upgraded floodlighting system and structures with 3.5m high acoustic barrier to the south and western boundaries. Install new community AGP with associated structures, hardsurfaces, fencing, floodlighting and grass mound. Divert existing footpath. Upgrade floodlighting system to existing community AGP and adjust existing ball stop fencing. Install new vehicular access from Bradley Road to create a new one way circulation system and extend existing car park with new lighting columns, electrical charging points and landscaping. Re-arrange existing grass pitches

Comment Details
Commenter Type: Member of the Public
Stance: Customer made comments in support of the Planning Application
Comment Reasons:
Comment:As an U8 team coach, this facility is essential to maintaining the access to sports for our young people. As a regular user of the existing facility as a player and coach, this type of pitch is essential to allow the playing season to continue through the winter months and ensure the talent from the Grimsby area get the same opportunities as those in other areas of England that have invested in such facilities to ensure increased game time during the youth development years.

I feel the location is perfect for such a development, being in a relatively low population area, traffic congestion is minimal enabling easy access for all areas of the borough.

One point to feedback to the developers - it would be well worth including some measures to tackle the anti social use of motorcycles on the Bradley fields area by preventing access from the local housing estate. Physical measures are required to prevent a potential collision between a motorcycle and facility user. During a recent match day I witnessed no end of motorcycles being ridden through crowds of people on the grass pitches with not a care in the world - this should not be acceptable.

The activities are not just football either, with a wide range of activities taking place to cater for all

Furthermore this would give the centre the opportunity for multiple clubs to train in a safe and secure environment giving players the opportunity to develop their skills and live a healthy and active lifestyle, to which currently many clubs can't access due to the facility being so busy and in high demand

I would like to ask that the Planning Committee consider very carefully the amount people that this development could help improve their opportunities to be healthy whilst also enabling many more to develop their footballing skills in a safe environment in which the town could be proud of

Yours sincerely

Dear Sir/Madam,

Ref: Planning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my support to the above planning application on the following grounds:

I believe that the proposed development will improve the sporting facilities in the area and provide a better place for all ages to be able to participate in sport, the area is short of facilities that are at the highest level and this would be a major step in the right direction

I am aware that the facility provides activities in which people from all ages from pre-school to active seniors can participate on a weekly basis, which is good for the health and well-being of all ages in the area. The activities are not just football either, with a wide range of activities taking place to cater for all

Furthermore this would give the centre the opportunity for multiple clubs to train in a safe and secure environment giving players the opportunity to develop their skills and live a healthy and active lifestyle, to which currently many clubs can't access due to the facility being so busy and in high demand

Dear Sir/Madam,

Ref: Plannning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my objections to the above planning application on the following grounds:

I believe that the proposed extension will have a hugely detrimental effect on the quality of life and health of the residents who live anywhere near the Bradley Pitches site.

Residents already suffer as a result of the existing Football Centre and are plagued with noise and light pollution, traffic congestion and pollution, litter and anti-social behaviour issues. There are supposed to be management systems in place to control these problems, but these have not been effective. If they are not effective now why should this change if the usage of the facility is meant to increase by at least another 300% and traffic movements by 400%?

A lot of the residents are elderly and spend a lot of time in their homes, often through illness. Those that work want to enjoy their family life at home. Everyone should have the right to some quiet enjoyment of their homes and gardens without the threat of constant disturbance.

I think that the opening times (8am – 10 pm every week night and 8 – 6pm every weekend of the year) are totally unreasonable. The facility will be in intensive use 364 days a year. The potential for disturbance of all kinds, but particularly noise, traffic and light pollution issues will be relentless.

I would like to ask that the Planning Committee consider very carefully the lasting and devastating implications and repercussions this proposal would have on the nearby residents. Consequently I would ask that they refuse the application.

Yours sincerely

Comments for Planning Application DM/0221/19/FUL

Application Summary

Application Number: DM/0221/19/FUL
Address: Bradley Football Development Centre Bradley Road Grimsby North East Lincolnshire DN37 0AG
Proposal: Install new stadium artificial grass pitch (AGP) in lieu of existing, with associated fencing, hardsurfaces, upgraded floodlighting system and structures with 3.5m high acoustic barrier to the south and western boundaries. Install new community AGP with associated structures, hardsurfaces, fencing, floodlighting and grass mound. Divert existing footpath. Upgrade floodlighting system to existing community AGP and adjust existing ball stop fencing. Install new vehicular access from Bradley Road to create a new one way circulation system and extend existing car park with new lighting columns, electrical charging points and landscaping. Re-arrange existing grass pitches

Comment Reasons:
Comment:Hi, I am the manager of Healing Hotspurs U11's in the local kids football league. For me its a no brainer to create more all weather pitches at Bradley. The more of these type of facilities the better. In a time when kids are getting overweight and sitting on computers alll winter because there are no lit up areas to go and play sport its surely a good thing to have more space.

Regards
Danny Jackson

Comment Reasons:
Comment:I strong support the building of another 3G pitch and expansion of its services to the community.
I regularly use Bradley Pitches as a Referee, Referee's Observer and the Treasurer/a Committee Member of the Grimsby, Cleethorpes & District Referee's Association.
The local leagues actively use the facility and have been using the existing 3G this season for both youth and adults. There is more scope for this with the building of another 3G.This includes Man vs Fat Football, which I Referee on. This scheme has been very successful in achieving male weight loss in line with Lincs Inspire.
With the addition of another 3G, it allows the leagues to play more fixtures when the weather is not so good and allows the leagues to expand the provision for fixtures.
An extra 3G may give the RA a chance to do outdoor interactive sessions, as we hold our meetings normally on Monday evenings at Bradley FDC from 7pm between August and May.
It will also give local referees and players more scope to be involved in football, particularly in poor weather and in the evenings where there is a lack of light.
Also, 3G's have been effective in implementing the England DNA scheme, and they are great for implementing safeguarding policies such as RESPECT lines in youth football, in line with the FA RESPECT scheme.

Naturally, it is important the roads, parking and footpaths are updated to make the 3g's successful.

The positives of this proposal mean that in conclusion, this proposal should happen in my opinion.

Comment Details

Commenter Type: Member of the Public
Stance: Customer objects to the Planning Application
Comment Reasons:
Comment:I am a regular visitor to friends who live on Bradley Road opposite the Bradley Football Development Centre. Regularly I have difficulty entering and leaving my friends property due to continuous streams of traffic along Bradley Road.
When at Bradley Road the doors and windows have to be kept closed to keep out the shouting and swearing from the Football pitches. It is not acceptable that anyone should have to stay indoors to avoid such disturbances. Everyone should have the right of peace and quiet in a rural environment.
I therefore object to the grant of this application on the grounds that it is not appropriate for expansion in this location.

Comment:I often visit a close friend in the village and I can observe how much of a negative impact the site already has on them. On my visits I can tell that the traffic and noise is far worse than it has ever been in the past. Sometimes even just going down Bradley road is difficult and dangerous for road users

On their behalf I would therefore like to object to this extension as it would further destroy a lovely village to visit.

6 STEPHEN CRES,
GRIMSBY,
DN34 5LZ
15/4/2019.

Dear Cheryl Jarvis,

We wish to object in the strongest possible terms to the application by the NORTH EAST LINCOLNSHIRE COUNCIL (NELC) to the extension of the existing football pitches at Bradley Park / Stephen crescent, GRIMSBY.

Light Pollution is an existing issue and is only just tolerable. To increase this pollution would have a marked effect on the well-being and health of an already ageing residential population in both Bradley village and Stephen Crescent.

Football, by its very nature, generates noise. Both Bradley village and Stephen Crescent may be described as semi-rural, and such noise would have a debilitating effect on the existing population. The increase of anti-social behavior, not to mention litter, are real issues that will be foisted onto our local environment, but more importantly, the residents will have to tolerate these problems, because the N.E.L.C. do not have viable solutions. We, the people living here, will have an impaired way of life. What for? A game of football!

Have we mentioned car-parking issues? We dare not address this; the very thought fears us!.

The Park is Grimsby's last 'green belt'. Why do we have to suffer its loss? We think of trees being uprooted, bushes and hedges destroyed. Additionally, Birds will be denied nesting, and the loss of habitat for small animals.
Bradley Park is a beauty spot, and many families use the park of for their leisure and wholesome activities. The N.E.L.C. would have all of this ruptured. What for? A game of football! Unfortunately, Grimsby has little Heritage remaining and now our one small glimmer of hope is being erased. What for? Money! This application is about People's quality of life, and finance. Are we all measured and quantified by money?

You may consider that the following is somewhat emotionally driven. We hope so, simply because it is.

We can't comment on Bradley village, but Stephen Crescent is replete with older, long retired people. Many are infirm and suffering from long-term illnesses. It's vital that they have peace and quiet in their latter years. To rupture the lives of these individuals, many in their 70's + 80's, would only serve to hasten their deaths through the destruction of their living environment: All because of a game...?

We understand that the proposed N.E.L.C application is to have football activities seven days per week from 8 a.m. to 10 p.m.
Such a proposal is nothing less than scandalous and we shouldn't have to tolerate any such idea as this, which is clearly shocking and profoundly scary! Cruel!.
Residents lives are already under stress due to the exciting noise, and is about all the residents are able to endure. The foregoing is well established from resident' reports who can't listen to the radio / T.V. at acceptable volume levels because of the noise generated by playing football — players and fans alike.

5

N.E.L.C. is a large organisation. with extensive facilities, and is very capable of securing an appropriate site for their football venture – far from residential living space. Remember! This is Grimsby's last 'GREEN BELT', and NELC are envisaging its destruction.

We are certainly not anti-football, but their proposals demonstrate a serious lack of concern for people, especially older members of the locale The quiet way of life here in Stephen Crescent/Bradley will be destroyed by replacing trees and grass with noise and light pollution, excacerbated by litter and anti-social behaviour.

6

ROAD ACCESS + NOISE INCREASE.

N.E.L.C. proposals to minimise noise levels and anti-social behaviour are woefully indequate. The 'noise-check' on Nov. 2018 was not at all realistic. A more accurate assessment of noise levels at Bradley pitches would be on a Sunday morning and afternoon at the height of the football season. N.E.L.C. do not have any solutions for litter, anti-social behaviour and the traffic congestion that will surely develop on Bradley Road.

In short, N.E.L.C. cannot guarantee the foregoing points, and at a recent meeting admitted that they 'don't know' how to control the main issues. A 3.5 metre noise reduction does not work. Ask people who live near King George 5th. Playing fields. I

This proposal must at all costs be refused. It's inhumane, unfair and cruel.
N.E.L.C. are employing bullying tactics by forcing this second application onto the local residents of Bradley Parke/ Stephen Crescent.
We refuse to accept the unacceptable.

N.E.L.C. would do well to find a more appropriate site to retain a good relationship with the residents, which would clearly enhance N.E.L.C.'s prestige as a thoughtful and considerate Council. Thank you.

Sincerely

(W. PARKER)

Ref: Planning application DM/0221/19/FUL, Extension of Bradley Football Development Centre

I am writing to voice my support to the above planning application on the following grounds:

I believe that the proposed development will improve the sporting facilities in the area and provide a better place for all ages to be able to participate in sport, the area is short of facilities that are at the highest level and this would be a major step in the right direction

I am aware that the facility provides activities in which people from all ages from pre-school to active seniors can participate on a weekly basis, which is good for the health and well-being of all ages in the area. The activities are not just football either, with a wide range of activities taking place to cater for all

Furthermore this would give the centre the opportunity for multiple clubs to train in a safe and secure environment giving players the opportunity to develop their skills and live a healthy and active lifestyle, to which currently many clubs can't access due to the facility being so busy and in high demand

I would like to ask that the Planning Committee consider very carefully the amount people that this development could help improve their opportunities to be healthy whilst also enabling many more to develop their footballing skills in a safe environment in which the town could be proud of

Yours sincerely
